Tenney Lapham

1895 Street Directory

Note: The number after the street and house number refers to the name of the occupants. A "v" indicates the house is vacant in 1895. The Central Madison Public Library has this directory to look up the name of the 1895 occupant.

ANGELL'S NUMERICAL DIRECTORY INDEX.

(*Patented Dec. 31, 1895.*)

A complete index of all house numbers found on the various streets and avenues in the city and Wingra Park. The streets and avenues are alphabetically arranged; under each, the house numbers (large figures) follow in numerical order as they appear on the various blocks and residences, commencing at the lowest number and continuing to the highest. After each house number will be found numbers, shown by exponents or small figures; these cite the page or pages in the general directory on which the names of the occupants of a building are to be found, and they follow in this order: Main occupant and his or her roomers and servants, thus ($16^{105\ 165}$); co-occupant and family, with the letter z prefixed to the pages cited ($z^{177\ 280}$) those occupying the basement and family, with the letter u prefixed to the pages cited ($u^{126\ 43}$); those residing over and family, with the letter o prefixed to the pages cited (o^{239}), and those living in a building to the rear of another (without a number), by prefixing the letter r to the pages cited, thus ($r^{434\ 76\ 116}$). Second and third floors in business blocks are shown thus ($b^{62}\ c^{85}$, etc.) Vacant buildings are designated by the letter v affixed to the house number, thus (245v).

In looking up occupants of buildings, thoroughly scan the pages cited to, as often two or more of the same, or of a different name, will be found on the same page. In a city of this size one citation covers all members of the family of the same name. The four avenues which extend from the Capitol square and Washington street in the western part of the city are the starting points for numbering; the Philadelphia system is used. i. e., the first number on the first block therefrom is number 1; the first number on the second block 101, and so on, the odd numbers appearing on the east and south side of streets.
